

Half of Me (Enzo Remix)

Emily Browning

Where did you go?
Baby, no, no, no,
Where did you go, my mystery?
I'm right here,
You left me alone,
You are the seed,
You left me to drown,
I am your ecstasy,
I can't feel no pain,
You are the need,
I can't feel nothing but memories,
Chasing the beast,
So where are you now,
I'm ready to feed,
To feed inside you, Sleep in the clouds,
And dream, still shining down on me,
And pieces underneath, Cause half of me is gone,
We are the blood,
Half of me is gone,
We are the bone,
Half of me is gone,
We are the floor,
Half of me is gone,
We are complete, so we are complete, I'll be your cuts,
And you'll be my mandolin,
You took the purest part of me,
Follow me, you and me,
You made me my own worst enemy,
Your own worst enemy,
Six billion followers, follow me,
You made me my own worst enemy,
Cause we are the blood,
And we are the bone,
And we are the flesh,
Baby you and me, You may find me excreting hormones,
Directly into your circulatory system,
Delivering oxygen, reaching,
Every cell, every cell, Cause half of me is gone,
I'm inside you,

Half of me is gone,
I'm inside you,
Half of me is gone,
Oh feed me, feed me, baby,
Half of me is gone,
Woah oh! Cause we are the blood (baby please wake up),
We are the flesh,
And we are the bones (baby please wait for me now),
Yeah you're all of me, We are the blood,
We are the flesh,
We are the bone,
Yeah you're all of me, Follow me, follow me, follow me,
Yeah you're all of me.
