

I Can't Breathe

Krypteria

"Stupid me, why did I sign ?" I ask myself as here I find myself sinking in the quicksand of your crime
Have I not done enough for you ? Now that you've taken the best of me we're even so why don't you let me
leave ?

Read what you signed - it tells you that you relinquished all your rights

I can't breathe, I'm in trouble - I never knew that I could bite off more than I can chew

I can't breathe, burst my own bubble - I'm not your fool I'm through with dancing to your tune

We are through

How can I have been so blind to fall for all your pompous lines and embrace you only to get stabbed from
behind ?

You nailed your victim to the wall and put me on display for all to see - I'm sick of living life behind the eight
ball

Read what you signed - it tells you that you relinquished all your rights

I can't breathe, I'm in trouble - I never knew that I could bite off more than I can chew

I can't breathe, burst my own bubble - I'm not your fool I'm through with dancing to your tune

We are through

Read what you signed - it tells you that you relinquished all your rights

I can't breathe, I'm in trouble - I never knew that I could bite off more than I can chew

I can't breathe, burst my own bubble - I'm not your fool I'm through with dancing to your tune
