

# Do Right by Me

**Reba McEntire**

Sometimes you treat me so cruel  
I don't think I can take it  
Sometimes you hurt me so bad  
I just wanna die  
But in a moment like this  
With a tender touch an' a lover's kiss  
You put all of my pain aside  
And I say to you with my eyes Do right by me and make it last forever  
Tonight I need to be here in your arms  
Where the hurting ends and the love begins  
Do right by me and I'll never do you wrong It feels so good to be so close  
Like we were when we started  
Ooh, back when the troubles were few  
And the lovin' was blind  
Funny how people so close  
Know the things to say that can hurt the most  
Baby why can't we just be kind  
And capture this moment in time Do right by me and make it last forever  
Tonight I need to be here in your arms  
Where the hurting ends and the love begins  
Do right by me and I'll never do you wrong
