Walk

By the Tree

Take a walk down, down, down
Down to the other side
Take a walk with meTake a walk down, down, down
Down to the other side
Let your heart be freeTake a walk down, down, down
Down to the other side
Take a walk with me
And if you just walk away
Soon the pain will fade
And if you just close your eyes
You will find the lightClose your eyes, close your eyes, now
You can feel the morning sun, feel it on your face
Close your eyes, close your eyes now
Reach for the Holy One, realize His graceHe will dry your tears
And take away your fearsAnd if you just walk away
Soon the pain will fade
And if you just close your eyes
You will find the lightTake a walk down, down, down
Down to the other side
Let your heart be free
Just walk away
Soon the pain will fade
And if you just close your eyes
You will find the lightAnd if you just close your eyes
And if you just close your eyes
Just walk away
