

Come to Life

Justin Tyler

Packed our bags out the door
In the car top down leave it all behind
Cuz we are young we dont care what were told
 No limits blowing past the signs
 We dont know where were going
 Passing by cars on the 65
 I told my girl on the left let go
Put your hands up and close your eyesCuz nothing can stop us
 You got me believing
 Whatever we do wont end tonight
 Cuz nothing can stop us
 And no turning back now
 Weve come to far to say goodbye
And the night is young on a one way street
 Thats got us going wild
 Cuz nothing can stop us
 And now Im believing
Whatever we want will come to lifeNo rules having fun with your sundress on
 We dont have to leave
 So this is it how it feels living life
 No worries young wild and free
 We can do anything that you want
 We dont have any place to be
Lets blow the roof off this house you and I
That we found here on the beachCuz nothing can stop us
 You got me believing
 Whatever we do wont end tonight
 Cuz nothing can stop us
 And no turning back now
 Weve come to far to say goodbye
And the night is young on a one way street
 Thats got us going wild
 Cuz nothing can stop us
 And now Im believing
Whatever we want will come to lifeCuz nothing they say could take us home
 And nothing they do can make us go
 Nothing they say could take us home
And nothing they do can make us goCuz nothing can stop us
 You got me believing

Whatever we do wont end tonight
Cuz nothing can stop us
And no turning back now
Weve come to far to say goodbyeCuz nothing can stop us
You got me believing
Whatever we do wont end tonight
Cuz nothing can stop us
And no turning back now
Weve come to far to say goodbye
And the night is young on a one way street
Thats got us going wild
Cuz nothing can stop us
And now Im believing
