

# Light Falls Away

## Adam Lambert

Goodbye my friends

So long

Light falls away

Gone another day

So long my friends

Goodbye, this is not the end

Tomorrow

Yeah

We'll go higher than we

We've been

I won't leave no

Not a thing

For the home swim

For it's always been, somewhere in between

Light falls away

And it's easy to see, hope in our dreams

So don't let me, sleep to long

For I, don't want to miss a thing, with you

We'll go higher than we

We've been

I won't leave no

Not a thing

For the home swim

We'll go higher than we

We've been

I won't leave no

Not a thing

For the home swim

For it's always been, somewhere in between

Light falls away

And it's easy to see, hope in our dreams

Night, my friends

Tomorrow will start again

At first light
