

Another Time To Stay (acoustic)

Ocean Colour Scene

Had another dream, oh yeah
The play was rolling slowly
Had another dream, oh yeah
But I could not see you only Just hold me
'cause lying in your arms it's you I have
Yeah, lying in your arms it's you I have This is another time to stay
This is another time to stay
Though I don't think my dreams will see the day All of us bring a smile
Mine's broken, please stay Had another dream, oh yeah
The play was rolling slowly
Had another dream, oh yeah
But I did not see you only Just hold me
'cause lying in your arms it's you I have
Yeah, lying in your arms it's you I have This is another time to stay
This is another time to stay
Though I don't think my dreams will see the day All of us bring a smile
All of us bring a smile
All of us bring a smile
Mine's broken, please stay This is another time to stay
This is another time to stay
This is another time to stay
This is another time to stay
This is another time to stay
