

# Where Will I Go

## Darkseed

so many questions  
but no answers about me  
    where is my home  
in my head it droneswhere will I go  
    senseless wandering  
        no open door  
        nowhere to return  
        where will I go  
        where do I belong  
    where's the end of my way  
where will I stay, where will I go?My life is hopeless  
    Nowhere to turn  
    Where do I fit in  
    Where do I belong  
    I don't follow footprints  
    I wanna make my own  
        Wherever I go  
There was someone elseThe answer to this quest of life:  
    Will I find my way  
    To refresh my soul  
    Exchange for promises and hope  
        I'm wandering in tears,  
        New perspectives I will find
