

Christmas Eve

Ringo Starr

It's Christmas and you're not here
The snow is falling down, like my tears
 I see your presents by the tree
 I can't believe you're not with me
On Christmas, Christmas eveIt's Christmas with stars above
 How many times has it been said
 A time for love?
 And underneath the mistletoe
 I'm standing here all alone
On Christmas, Christmas eveI hear your voice, I see your smile
 You were my Christmas song
But now you're gone, now you're goneIt's Christmas, it seems so long
 The lights are all around the tree
 But not turned on
 I saw your footprints in the snow
 I'd never thought you'd really go
On Christmas, Christmas eveIt's Christmas
 It's Christmas eve
