

Fight Like This

Decyfer Down

You're time is done, I'm moving in
I've come to fight or lose, so go ahead and try me
You know I've just begun, just begun(Chorus:)
You've never seen a fight like this before
(Like this before)
I take you down and leave you there wanting more
(More)
You've crossed the line that I cannot ignore
(Cannot ignore)
You've never seen a fight like this before
(Yeah)Feel the pain, I bring down on you
You won't deny my will, cause what I start I will follow through
Craving all that I can see
Making something out of me(Chorus)
