Take It Low

Sean Paul

When dey spin up di place we a turn it up

Eye red, now you feel so you burn it up

And a sit by di kids, we a surf it up

We a stick to di peace, now swerving up

Too late to dem keep hatin us

Can't nothing dem a do, ain't phasin us

From the side them been underrating us

But the girl that see some great in usAye, let's have it lovely like that you see?

Love the girl pretty, you can reach underneath

Sucka think dem a get to me

Dem a get fi greedy with the lovin on it

All week we await fi dweet

All week we await fi di beat

It's weekend now so we can go get it on and move at full speedAye baby girl I wanna see you drop it low
Up up and down just like a stripper on a pole

Girl girl shake it up

Too much cone, just drink it up

Gyal make it like we a fuck

Aye girl just take it low Take it low, take it low

Take it low, take it low

Take it low, take it low

Take it lowOn di area live we a cruise

Comin through, steady waitin for a chance

I love di gyal dem a blues

And I tell dem confuse

Lose that man when I'm swerving out the club

What di gyal I'mma do

Into di club, mash up the club

Out of the club, back to the yacht

That's how we do, me and di crew

My girl, take it allAye, let's have it lovely like that you see?

Love the girl pretty, you can reach underneath

Sucka think dem a get to me

Dem a get fi greedy with the lovin on it

All week we await fi dweet

All week we await fi di beat

It's weekend now so we can go get it on and move at full speedAye baby girl I wanna see you drop it low
Up up and down just like a stripper on a pole

Girl girl shake it up

Too much cone, just drink it up
Gyal make it like we a fuck
Aye girl just take it lowTake it lowBack so sweet
Move yo body at full speed
Drop it low, drop it like full speed
Go go go at full speed
Move yo body at full speed
Drop it low, drop it like full speed
Move yo body at full speed
Move yo body at full speed
Move yo body at full speedOh oh
