

Vehicles & Animals

Athlete

It's the simple things like the robots Stevie G draws
And the ease with which we seem to pull those tricks
There are moments of escape for every one of us
And the beauty in the times that we create I saw you smiling
And I need my vehicles and animals
And I will be alright
Take me back to 1979 so I can find my open eyes He can play all by himself for many hours
I have never seen a kid who's so content
And there is nothing from the outside that can touch him
'Cos he's just learning how to be alone with one I saw you smiling
And I need my vehicles and animals
And I will be alright
Take me back to 1979 so I can find my open eyes And I need my vehicles and animals
And I will be alright
Take me back to 1979 so I can find my open eyes Lying down on my bed
I just got another kick to the head
Oh yeah, you're a part of me
Yet another branch on the family tree Salt on my fingers salt in my cuts
Salt on my face and salt in my guts
It's been a battle but we've come through okay
Stop what you're doing and play 'Cos we've got our vehicles and animals so
We're gonna be alright
And there's no need for us to go back in time
'Cos we've found our open eyes We've got our vehicles and animals so
We're gonna be alright
And there's no need for us to go back in time
'Cos we've found our open eyes
