No Joke

Ab-Soul

Stocks risin', fertalizin' neighborhoods with butta butta
Black steel, no mass, no tags--gutta, gutta
Look up in the sky, no stars, helicopters hover
Grab my strap, kiss my mother, bust back duck for cover
Hit the bounty, straight hunter, main line speak ya mind
Where you from? Take ya time, bust a nigga no response
Rest a hater, respirator... no response

Green light, go time
Where yo block? I know mine
So you know, one time, snitch nigga, bitch nigga
Re-up with a seven cuz that's all I can get, nigga
Small time hustler, me I'm just a governor
Of my city fuck with me juggle shots through ya jugular
Projects hold me down, A1 customers

A1 army guns, A1 predators

Pigs yellin' man down, got the law scared of us

Nigga we ain't scared of nothing, break it down, show me something

I don't wanna have to hit you with this fo' mayne

Burn ya whole block down like propane
Over that cocaine, tryna get mo' change
If you ain't know, now you know mayne!
Slang game green rain, sleet, hail, snow
Finna take another trip to the liquor store
The fiends wanna smoke and you can get smoked cuz
These streets ain't no motherfucking joke
Back on my bullshit, back on the blocks riffin'
Get it off re-up flippin', gettin' off his car flippin'
Model bitch think I'm trickin'

Oh no, no go W-oh no 30 bucks, mo' mo'

What the fuck you thought this was?

All I know is doin' me
Flyin' spur doin' 3
Gutter lane, blowin' tree
Homie what you smokin' on?
I can get it dirt cheap
I can get it for the low
Hard rock or pure blow

I can show you how to whip it
Birdies given off a show
Servin' quail in the kitchen
Remedy for meal tickets
Dope game, real wicked
Some deals go sour
Real niggas locked up
Snitched on by known cowards
OG told me that's life
Murders keep me rest at night
My daughter keep me level-headed, reason why I sacrifice

Story of a real nigga

This is how I feel, nigga

Come between my piece of mind, get yo ass killed nigga!

I don't wanna have to hit you with this fo' mayne

Burn ya whole block down like propane

Over that cocaine, tryna get mo' change

If you ain't know, now you know mayne!

Slang game green rain, sleet, hail, snow

Finna take another trip to the liquor store

The fiends wanna smoke and you can get smoked cuz

These streets ain't no motherfucking joke

My momma told me tread softly, gotta keep them feds off me

Gotta keep the guards on me, I know them mothafuckas want me

Know I gotta hold it down

Know I gotta run my town Know tomorrows never promised Know I gotta get it now Know I got a job to finish Know I need stock to grow Know I need Lord's forgiveness Know I've been through obstacles Know I gotta shit on niggas Know I gotta do my thang Knowin' that I'm knee deep Know the drama that it brings Know I can't trust these hoes Know I can't chase these bitches Know I gotta chase this bread Know I gotta push these Benzes Know I gotta push these trucks Know I gotta paint these pictures Know I gotta give it up Know you better mind your business

Know I gotta stay silent Know I can't fall for nothing Know I know hard times Know I gotta stay humble Know I gotta keep it gangsta Know you gotta come and get me Know I gotta keep it pushin' Know you can't fuck with me I don't wanna have to hit you with this fo' mayne Burn ya whole block down like propane Over that cocaine, tryna get mo' change If you ain't know, now you know mayne! Slang game green rain, sleet, hail, snow Finna take another trip to the liquor store The fiends wanna smoke and you can get smoked cuz These streets ain't no motherfucking joke
