

# Love Migraine

Ne-yo

[Verse 1]It's making my head hurt

I've got a migraine

Because

You're not supposed to be here

I don't wanna love you

Your somebody else's

Yeah

She made it perfectly clear

She told me if i saw you tonight

To tell you

She forgives you

And that she knows that we been together for about a year

She said that she know that i love you

But not like she does

I think it'd be best if you got your things

And got out of here

I've got a migraine[Chorus]Someone please come stop the pain

I can't take this love migraine

My head don't hurt as much as my heart, no

Someone please come stop the pain

I can't take this love migraine

My head don't hurt as much as my heart, no

Just can't take this love migraine[Verse 2]I wish you'd of told me

That you had a daughter

I would have liked to meet her

It would've been nice

While we're on the subject

Of what should've happened

I guess you could have mentioned the fact

That you have a wife

Oh I've got a migraine[Chorus]Someone please come stop the pain

I can't take this love migraine

My head don't hurt as much as my heart, no

Someone please come stop the pain

I can't take this love migraine

My head don't hurt as much as my heart, no

Just can't take this love migraineJust can't take this love migraine[Chorus]Someone please come stop the pain

I can't take this love migraine

My head don't hurt as much as my heart, no

Someone please come stop the pain  
I can't take this love migrane  
My head don't hurt as much as my heart, no  
Just can't take this love migrane
