

# Live for the Drop

## Capital Kings

Let the bass kick in cuz we're ready to go  
And no, we can't stop now, it's deep inside of our bones  
Consuming me like a magnetic pull  
It's supernatural, so supernatural (yeah, yeah)

We came to blow it up  
Bring some speakers and some subs  
If you're down, then that's what's up  
You know we can't get enough  
What we have it can't be bought  
What we do it can't be taught  
Put in our bluff from up above  
Yea we live for the drop

Oh no we can't stop  
C'mon, let the beat rock  
You know, You know  
We live for the drop

Yea, Yea  
Yea we live for the drop  
Yea we live for the drop  
Yea, Yea  
Yea we live for the drop

And like a heartbeat, it keeps me going on  
Like the remedy, it's something way beyond  
Consuming me like a magnetic pull  
It's uncontainable, so uncontainable (yeah, yeah)

We came to blow it up  
Bring some speakers and some subs  
If you're down, then that's what's up  
You know we can't get enough  
What we have it can't be bought  
What we do it can't be taught  
Put in our bluff from up above  
Yea we live for the drop

Oh no we can't stop

C'mon, let the beat rock  
You know, You know  
We live for the drop

Yea, Yea  
Yea we live for the drop  
Yea we live for the drop  
Yea, Yea  
Yea we live for the drop

Yea, you know it's going down  
Feel us lifting off the ground  
Feel us lifting off the ground  
Yea, you know it's going down  
Feel us lifting off the ground  
Ready for the ride of our lives  
So let's get it now

Yea, Yea  
Yea we live for the drop  
Yea we live for the drop  
Yea, Yea  
Yea we live for the drop
