

# Madalaine

## Winger

Yeah

Yeah

Tell you about this ladySuch tender eyes

Such a sweet believer

The story never lies

When I found you girl

You were so far down

A black cat in disguiseHow in the world could it come to this

Couldn't you see that you've gone too far

Saving your soul for that one last kiss

Living your wish upon a starMadalaine

This is love too tough to tame

Madalaine

Beware of the girl

Beware of the painRunning scared

Through the dark of the day

The story never dies

But the names keep changin'

And the faces fade

Take you dead or aliveHow in the world could it come to this

Couldn't you see that you've gone too far?

Saving your soul for that one last kiss

Living your wish upon a starMadalaine

This is love too tough to tame

Madalaine

Beware of the girl

Beware of the painAll of your glory was left like an angry child

Waiting to take your luck away

But you can't see you're still running wild

Oh Madalaine!

Now don't run away from meMadalaine

This is love too tough to tame

Madalaine

Beware of the girl

Beware of the painMadalaine

This is love too tough to tame

Too tough to tame

Beware of the pain

Beware of the pain
