

Living in the Material World

George Harrison

I'm living in the material world
Living in the material world Can't say what I'm doing here
But I hope to see much clearer,
After living in the material world I got born into the material world
Getting worn out in the material world
Use my body like a car,
Taking me both near and far
Met my friends all in the material world Met them all there in the material world
John and Paul here in the material world
Though we started out quite poor
We got 'Richie' on a tour
Got caught up in the material world From the spiritual sky,
Such sweet memories have I
To the spiritual sky
How I pray
Yes I pray
That I won't get lost
Or go astray As I'm fated for the material world
Get frustrated in the material world
Senses never gratified
Only swelling like a tide
That could drown me in the
Material world From the spiritual sky,
Such sweet memories have I
To the spiritual sky
How I pray
Yes I pray
That I won't get lost
Or go astray While I'm living in the material world
Not much 'giving' in the material world
Got a lot of work to do
Try to get a message through
And get back out of this material world I'm living in the material world
Living in the material world
I hope to get out of this place
By the Lord Sri Kṛṣṇa's grace
My salvation from the material world
Big ending
