

I Love You

Ashanti

I love you, I love you
I love you, I love you I love you
'Cuz you mean everything to me and I
I love you
I thank you for just being in my life
I love you
Yes I love the way you always make me smile
I love you
And wherever I go you're always in my heart Nobody ever bring the joy you bring to me
You make me feel the way you do
And there ain't nothing like your love
That sometimes makes you stop and think like Do I deserve such a love that can now move heaven and earth
For my lovin' I could never surround my life without the things
That you provide ever since you came into my life
Yes and it feels like my whole world is happening
I can't stress how much I've been blessed See what you came and done to me
Yes you make my life complete
I know sometimes I might forget
That even when I don't say it
You know that I mean it II love you
'Cuz you mean everything to me and I
I love you
I thank you for just being in my life
I love you
Yes I love the way you always make me smile
I love you
And wherever I go you're always in my heart See I don't minding wake up everyday and see your face
And wanting to lay inside your arms
'Cause there ain't nothing like your touch
It's so good never seems like enough I didn't know that a love could grow and take over your soul
[Incomprehensible]
Only when you're apart it feels like living life is hard
Your entire world just seems so dark
Then it lights up 'cuz you are my shining star
And I don't know what I'd do without you See what you came and done to me
You make my life complete
I know sometimes I might forget
But even when I don't say it
You know that I mean it II love you

'Cuz you mean everything to me and I
I love you
I thank you for just being in my life
I love you
Yes I love the way you always make me smile
I love you
And wherever I go you're always in my heart When you love somebody you can share everything
Because you understand and you'll be right there
Anytime, any place, anywhere
And when you love somebody you could be [Incomprehensible]
To make every thing alright I love you
'Cuz you mean everything to me and I
I love you
I thank you for just being in my life
I love you
Yes I love the way you always make me smile
I love you
And wherever I go you're always in my heart I love you
I love you
I love you I love you
'Cuz you mean everything to me and I
I love you
I thank you for just being in my life
I love you
Yes I love the way you always make me smile
I love you
And wherever I go you're always in my heart
