

All My Life

MC MAGIC

Tell me can I talk to you
Girl where do you come from
I've been looking for you all of my life
Even though I barely know you boy
I think maybe tonight's the night
Cause I've been looking for your love all of my life It's two o'clock in the morning and I'm still wide awake
Writing letters to you girl but I throw them all away
Because I, I wanna show you what I feel for you
But these words and this paper just ain't good enough for you
How can I prove to you that girl you live inside my mind
And I could see your pretty face every time I close my eyes
Something about the way we met the day we met I cant forget
I play this song again and again and I
I tell myself that one day you gonna be my special queen
Convince myself that you feel the same way for me
And even though we just met it feels so right
It's going down tonight Tell me can I talk to you
Girl where do you come from
I've been looking for you all of my life
Even though I barely know you boy
I think maybe tonight's the night
Cause I've been looking for your love all of my life Girl I can tell the way you feelin' your smile is so revealing
That sparkle in your eyes got knowing that you're willing to take a ride with somebody like me
Lets take a chance girl and you can be my royalty
My loyalty from this night until the very end
Is like a game that we play but everybody wins
Si tu fueras mi reina yo te regalaria
Todos mis dias momentos llenos de alegria
You got me fienin for the taste of just one kiss
Im fantasizing what is like and I just cant stop this
I think I'm going crazy so tell me can we talk pretty lady Tell me can I talk to you
Girl where do you come from
I've been looking for you all of my life
Even though I barely know you boy
I think maybe tonight's the night
Cause I've been looking for your love all of my life Now I've been looking for this baby girl all of my life
The type of mamasita that is down for mine
And if you feel the same way let me know girl
Let me know mama

Come on cause I've been looking for this baby girl all of my life
The type of mamasita that is down for mine
And if you fell the same way let me know girl
Let me know mama Tell me can I talk to you
Girl where do you come from
I've been looking for you all of my life
Even though I barely know you boy
I think maybe tonight's the night
Cause I've been looking for your love all of my life
