

I'm a Bomb

Natasha Bedingfield

Yeah, yeah, woah, wo wo Taxi ride, going downtown
Me and my girls, going out
Counting down, to destination
Ten to zero, mushroom cloud Little angel, I've been too good
Ditch the halo, for a while
Dress to kill, I'll be causing
Mass destruction, so shield your eyes I'm all steamed up and I'm ready to blow
The pressure mounts need a red overload
To get release
I gotta explode, explode I'm a bomb, can you hear me tick?
Beware if you turn me on, there is no safety switch
I'm a bomb, use only steady hands
To mess with me, you must be a brave man
I'm a bomb yeah bomb, bomb, bomb, bom, bom
I'm a bomb yeah bomb, bomb, bomb, bom, bom Bass so loud, I can't hear you
Can't diffuse me now I'm wired
Do not disturb while I'm dancing
Watch me set this house on fire I'm a bomb, can you hear me tick?
Beware if you turn me on, there is no safety switch
I'm a bomb, use only steady hands
To mess with me, you must be a brave man I'm a bomb, can you hear me tick?
Beware if you turn me on, there is no safety switch
I'm a bomb, use only steady hands
To mess with me you must be a brave man Club crescendo getting loud
Run for cover underground
What you doing showing me no fear
You must be crazy hanging 'round here I'm all steamed up and I'm ready to blow
The pressure mounts need a red overload
Need to get release
I'm gonna explode, explode I'm a bomb, can you hear me tick?
Beware if you turn me on, there is no safety switch
I'm a bomb, use only steady hands
To mess with me you must be a brave man I'm a bomb, yeah, yeah, yeah, can you hear me tick?
Beware if you turn me on, there is no safety switch
I'm a bomb yeah, use only steady hands yeah
To mess with me you must be a brave man I'm a bomb
I'm a bomb
I'm a bomb
I'm a bomb

You must be a brave man
