

# No Way

## The Naked And Famous

When the daylight comes  
Do you feel it?  
Leave your bag of bones  
Underneath your bed  
Everything is as  
It should be  
I'm leaving now  
As I should be No way, no way  
No we're never gonna talk about it  
No way, no way  
No we're never gonna speak again  
No way, no way  
No we're never gonna talk about it  
No way, no way When the night descends  
Are you sleeping?  
All the things you've done  
Come to haunt you  
All that we can do  
Is smile  
It will be like this  
For a while No way, no way  
No we're never gonna talk about it  
No way, no way  
No we're never gonna speak again  
No way, no way  
No we're never gonna talk about it  
No way, no way I'm not sorry  
Hardest thing; losing  
Letting go, oo-oo  
Won't look back, no-oo  
No way, no way, no way
