Matonto

Cable35

My mind reflects a strange vibration, Into the valley of time
I cannot reach a new dimension, Its just a matter of timeI cannot get an inspiration, Confusion makes me unkind
How can I get an explanation, Its just a matter of time, timeMy mind is rife with degradation, forever weighing me down
I can't translate my hate to action, Its just a matter of time, timeHey can I go, I cant remember, cant remember
What shall I do, I cant remember, cant rememberI know Im lost and disconnected, confusion comforts my mind
I drown my troubles down the hatches, Its just a matter of time, timeShut up, shut up, shut up, shut up
Whats going on is driving me insaneShut up, shut up, shut up, shut up
All the noise is driving me insaneShut up, shut up, shut up, shut up
Whats going on is driving me insaneShut up, shut up, shut up, shut up
All the noiseTime timeMy mind reflects a strange vibration
I cannot reach a new dimension, Its just a matter of timeI cannot get an inspiration, confusion makes me unkind
How can I get an explanation
