They Catch Secrets

Camouflage

They live in a world just for their own
And keep secrets
Hopeless isolated in a groupGive me your hands and find solutions
Try to lose your distance
Waiting is a testalizing thingIllness institutions won't pay for them
The whole time
For someone only suicide shows awayGive me your hands and find solutions
Try to lose your distance
Waiting is a testalizing thing
(When they catch secrets)Give me your hands and find solutions
Try to lose your distance
Waiting is a testalizing thing
(When they catch secrets)Give me your hands and find solutions
Try to lose your distance
Waiting is a testalizing thing
(When they catch secrets)Try to lose your distance
Waiting is a testalizing thing
(When they catch secrets)
