

Chill

Trey Songz

Yeah yeah (yeah)
Uh hu (uh hu)
Yeah yeah (yeah)
Uh hu (uh hu huh) Can we get started?
I just wanna turn you out
We should leave this party
Go some place where them clothes come off and I can see that body
Shots got my head spinning round and round, round and round
How many drinks will it take me to get you alone baby? 'Cause a girl like you
Deserves affection when we're sexing
It's a blessing that you came
So when you come through
You already know what's on my mind
We ain't gotta waste no time Come chill with a nigga, yeah yeah
Come chill with a nigga, uh huh
I know we both gone off the liquor
But you should come chill with a nigga
Come chill baby, chill baby Bumping, grinding all on the floor
Know a nigga like that babe
If you 'bout it, come and ride it girl
Fuck around and have my baby, yeah
I love it when you fight back
Think I might wife that
Pussy got me going crazy 'Cause a girl like you
Deserves affection when we're sexing
It's a blessing that you came
So when you come through
You already know what's on my mind
We ain't gotta waste no time Come chill with a nigga, oh
Come chill with a nigga
I know we both gone off the liquor, but you
You should come chill with a nigga
Come chill baby, chill baby Bring it over here, need you now
Bring it over here, I treat you right
You know that you want to baby
Tell we what you gon' do baby
I got something that you need, baby please
Let me give it to ya
Ooh baby when I'm chilling with ya Chilling with a nigga but your clothes over there

Chilling with a nigga, got your booty in the air
Chilling with me, you won't wanna leave
When a nigga go deep, I'mma make you sing (sing to me)
You go
All them lames in your face
You ain't even gotta deal with them niggas
Keep it real with a nigga Come chill with a nigga
Come chill with a nigga
I know we both gone off the liquor
But you should come chill with a nigga
Come chill baby, chill baby So what's up?
And the last thing I wanna do is pressure you
There's no pressure, I'm just
Baby we've been kicking it all night, we've been vibing this
Just feels right
So if you ain't got noting else to do, or
If you cool with it, or just
You should come chill with a nigga Hop up in the car
We ain't gotta go far
I know you wanna go, girl come chill
And I've been kissing on your neck
Rubbing on your thighs
Don't it feel right?
(Chill with me, chill with me)
And now I got you thinking what
What if you give it up
Would he tear that pussy down
Bet he beat that pussy up
Grabbing all that booty, still it's cute he thinking butt
Mind like probably but that body saying yup
She say come on, so we gon', we gon' play the crib
And if tomorrow never came she can say she did
I got her literally feeling a nigga
So glad she came to chill with a nigga
