You Got to Me

Neil Diamond

Written by: neil diamondMama told me that some day it would happen
But she never said it would happen like this
Papa said, "look out, some girl'll catch you nappin'
Some little girl will get to you with her kiss"You got to me
You brought me to my knees
Never thought I'd say please, girl
You got to my soul
You got control
You got to me, you got to be mineUsed to slip thru every girl's hand like water
There never was one who could tie me down
Straight ahead and steady as gibraltar
'til you brought me tumblin' to the ground
