The Only Mistake

Joy Division

Made the fatal mistake, like I did once before
Tendency just to take 'til the purpose turned sourStrain, take the strain, these days we love
Strain, take the strain 'cause these days we loveYeah, the only mistake was that you ran away
Avenues lined with trees, strangled words for the day
Yeah, the only mistake, like I made once before
Yeah, the only mistake, could have made it beforeStrain, take the strain, these days we love
Strain, take the strain, these days we love
