

# Keep Your Heart Broken

## The Rasmus

Enfolding your love in my heart  
By the dawn I'll become  
The road keeps us apart  
For some time I'll be gone.

You promise you swallow your tears when I leave you  
You promise to follow the leads I would give you,  
You said you would crawl in the dark from the laughter  
You said you would long after me ever after.

[Chorus:]  
My love will grow black if your heart get stolen  
Just promise to keep your heart  
One day I'll come back if the door's still open  
Just promise to keep your heart broken.

Days go by like the wind  
And this life it's too short  
It makes no sense to give in  
To release you from my thoughts.

I promise to write you I'll always remember,  
I promise to try to be back 'till December  
I said I must go, I must face this disaster,  
You said I would come after you ever after.

[Chorus]  
If you just promise to keep your heart  
Promise to keep your heart broken  
If you just promise to keep your heart...  
Broken...broken.

[Chorus]  
For ever and after my life  
Just promise to keep your heart broken...
