Let It Ride

Paul Humphreys

From the moment you are free again
And your new eyes they can see again
And your thinking about the way things might have been
Slam the door, stay out to late
Reckless in the bed you make
To many friends and to little time to scoreAnd I wish you'd turn around
And tell me how the deal went down
I've never said goodbye so many times in my life
And all this falling down
I need something to lift me up
Somewhere along the wayLet it ride
Let it ride
Let it ride
Just another dayAsk me how I'm doing now
I search for things to laugh about
And I don't think my world will end today
One more drink out at the bar's
Lose the key's and where you are
How quickly all the sweetness fades awayAnd I wish you'd turn around
And tell me things are better now
I can't take back all those things
I've tryed, and I've tryed
And a young thing to hold me tight
I let some good ones pass me bye
Somewhere along the wayLet it ride
Let it ride
Let it ride
Just another dayNow I'm sitting in the sunshine
That dirty Limo parked outside
Like a rabbit on the run
I take my time, my time
Today the river ran dry
And I heard her cryLet it ride
Let it ride
Let it ride
Let it ride
Let it ride oooh
It's just another day
