

# Let It Ride

Paul Humphreys

From the moment you are free again  
And your new eyes they can see again  
And your thinking about the way things might have been  
Slam the door, stay out to late  
Reckless in the bed you make  
To many friends and to little time to score  
And I wish you'd turn around  
And tell me how the deal went down  
I've never said goodbye so many times in my life  
And all this falling down  
I need something to lift me up  
Somewhere along the way  
Let it ride  
Let it ride  
Just another day  
Ask me how I'm doing now  
I search for things to laugh about  
And I don't think my world will end today  
One more drink out at the bar's  
Lose the key's and where you are  
How quickly all the sweetness fades away  
And I wish you'd turn around  
And tell me things are better now  
I can't take back all those things  
I've tryed, and I've tryed  
And a young thing to hold me tight  
I let some good ones pass me bye  
Somewhere along the way  
Let it ride  
Let it ride  
Just another day  
Now I'm sitting in the sunshine  
That dirty Limo parked outside  
Like a rabbit on the run  
I take my time, my time  
Today the river ran dry  
And I heard her cry  
Let it ride  
Let it ride  
Let it ride  
Let it ride  
Let it ride ooh  
It's just another day
