

Be Free (Chus & Ceballos Mix) [feat. Omega]

Behrouz & Andy Caldwell

Is it all about you or is it all about me
Is it that what we truly think or is it just make believe
Is it all about nothing or so much about everything
Is it all about you or it's so much about me
Can we find the words to explain the truth to each other
well if so baby I'd love to be free

Is it all about you or is it all about me
Is it that what we truly think or is it just make believe
Though I could fool myself but I ended up hurting you
If I knew where I've been baby I wouldn't play the fool
I admit I was blind, wish I would have seen
Will we hold on
Or will we be mislead
Be free.....
