

# Lysergic Funeral Procession

## Down

Pray to someone  
I'm going out of my head  
Dislocate  
Stay safe in your unmade bed  
Lysergic funeral procession  
The world is watched  
Straight from your TV sets  
Makes you ill  
Turn off and drop out in spurts  
Lysergic funeral procession  
I get up, get ready to face this world  
I come down  
I come down so hard, I hit then bounce  
In a pool of piss I lay  
Once revived, I was better off like I was  
In so many pieces  
And I'm so damn mad, so fucking mad  
To lose that special darkness  
I've got nothing to lose
