

Blow Your Speakers

Big Time Rush

Under the strobing lights,
feel the rhythm, the rhythm and it'll get you right.
Sweat it all out of your system, you gotta free your mind.
Let yourself unwind, cause it's your night, night, night so get it right, right, right, common.
Can you feel it (inside), relax and go for (a ride), I know you need it, I can see it in your eyes. So hop in your
ride, roll your windows down,
cause tonight's your night, get lost in the sound.
Gotta crank the music loud! Baby blow the speakers out.
So hop in your ride, roll your windows down,
cause tonight's your night, get lost in the sound.
Gotta crank the music loud! Baby blow the speakers out. I know you feel the heat, I see you feelin' the fire,
Don't worry 'bout a thing, fulfill your every desire.
the DJ's playin' the song, so now you can't go wrong
cause it's your night, night, night so we'll do it right, right, right, common.
Can you feel it (inside), it likes to go for (a ride), I know you need it, I can see it in your eyes. So hop in your
ride, roll your windows down,
cause tonight's your night, get lost in the sound.
Gotta crank the music loud! Baby blow the speakers out.
So hop in your ride, roll your windows down,
cause tonight's your night, get lost in the sound.
Gonna crank the music loud! Baby blow the speakers out. (whoa-oh whoa-oh, whoa-oh whoa-oh) Lemme hear
you say,
(whoa-oh whoa-oh, whoa-oh whoa-oh) The party's never over no no no.
(whoa-oh whoa-oh, whoa-oh whoa-oh) Lemme hear you say,
(whoa-oh whoa-oh, whoa-oh whoa-oh) Whoa-oh whoa-oh-oohhhhh! So hop in your ride, roll your windows
down,
cause tonight's your night, get lost in the sound.
Gotta crank the music loud! Baby blow the speakers out.
So hop in your ride, roll your windows down,
cause tonight's your night, get lost in the sound.
Gotta crank the music loud! Baby blow the speakers out.
Gotta crank the music loud! Baby blow the speakers out.
Gotta crank the music loud! Baby blow the speakers out.
