

Tidal Wave

[Julie Anne San Jose](#)

Boy when I see you
Its hard to just walk past 'ya
Yeah you got close and my heart starts beating faster
I try to play it cool just like I'm an actor
But I'm see-through and it ends up in disasterGot me reelin'
I'm on the ceiling (Uh Uh)
And I can't help it
This love is what I'm feelin'
After you leave, that's when I'm dreamin"Bout how happy we could be
But I get lost at seaIt's like a tidal wave
And it keeps on washing over
I try to fight it but I still wanna hold you
Tidal wave and I just can't let it go nowCause you know things might be happening
Like they're supposed to
Maybe it's love that's happened for us
Maybe it's love that's happened for usWell when I see you my heart goes pitter patter
I wanna be with you happily ever after
And when you need me it just feels so much better
So say you're mine so that we can be togetherGot me reelin'
I'm on the ceiling
And I can't help it
This love is what I'm felling
After you leave, that's when I'm dreamingBout' how happy we could be
But I get lost at seaIt's like a tidal wave
And it keeps on washing over
I try to fight it but I still wanna hold you
Tidal wave and I just can't let it go nowCause you know things might be happening
Like they're supposed to
Maybe it's love that's happened for us
Maybe it's love that's happened for usYou keep washing over me baby
So I just can't help myself
Like a tidal wave that's got me
I can't be with no one elseAnd it's emotions like the ocean
I keep coming back for more
So please say you love me too
Don't leave me sitting on the shoreAnd I will be your one and only
And together we will be
So baby please just say you love me
Don't leave me out at seaIt's like a tidal wave

And it keeps on washing over
I try to fight it but I still wanna hold you
Tidal wave and I just can't let it go now Cause you know things might be happening
Like they're supposed to
Maybe it's love that's happened for us
Maybe it's love that's happened for us
