

# Don't Walk Away

## Tasty

I remember the days, you are my life  
I remember the days, I'm sorry for everything  
I remember the days when I had no hope  
I remember the mornings when I didn't get up  
There are so many things that I'd like to do  
You are my life, it should have been you  
I'm trying to do what I've been told  
But I think too much of what I can hold  
Baby, let me explain, I want you to stay  
I'm sorry for everything, please don't walk away  
Pump up the volume  
I want to hold you, I want to touch your skin  
Hearing you breathe  
Those simple things are carrying me on  
And now I know why you're leaving  
Open my door tonight  
Give me some time to set things right  
Don't leave me tonight  
I remember the days when I had no hope  
I remember the mornings when I didn't get up  
There are so many things that I'd like to do  
You are my life, it should have been you  
I'm trying to do what I've been told  
But I think too much of what I can hold  
Baby, let me explain, I want you to stay  
I'm sorry for everything, please don't walk away  
Pump up the volume  
Don't walk away  
Don't walk away
