

# Say It

Jennifer Hudson

Go girl! I've been playing the fool for too long  
Giving the power of my love on dawn  
Watching you all day long, watching you blow  
And I can't take no more  
Baby I like it, baby I love you and I gotta know Do you want me baby yeah?  
Do you need me baby? Then tell me I love you too (tell me you love me too)  
Tell me you need me too (tell me you need me too)  
Tell me you need my love (say you need my love)  
Say I only want you (say I only want you)  
If you love me say it (say it, say it)  
If you need me say it (say it, say it)  
If you want me say it  
If you need me say it  
Let me hear you say it Go girl! You know I give you the clothes off my back  
Pay for God to give you the things that you like  
Maybe I stay down, maybe I stay, maybe I gotta go  
Maybe I love you, baby I love you and I gotta know Do you want me baby yeah  
Do you need me baby Tell me I love you too (tell me you love me too)  
Tell me you need me too (tell me you need me too)  
Tell me you need my love (say you need my love)  
Say I only want you (say I only want you)  
If you love me say it (say it, say it)  
If you need me say it (say it, say it)  
If you want me say it  
If you need me say it  
Let me hear you say it Go girl! We can have a future  
Baby we can be in love  
We can have each other  
But if that's gonna be enough Tell me I love you too (tell me you love me too)  
Tell me you need me too (tell me you need me too)  
Tell me you need my love (say you need my love)  
Say I only want you (say I only want you) Tell me I love you too (tell me you love me too)  
Tell me you need me too (tell me you need me too)  
Tell me you need my love (say you need my love)  
Say I only want you (say I only want you) If you love me say it (say it, say it)  
If you need me say it
