

Hello Goodbye

Culture Club

Hello hello goodbye
Hello hello goodbye
Hello hello goodbye The rhythm of the jungle
A temperamental beast
Makes the mountain tremble
Brings giants to their knees If I ask you to stay
You might leave anyway
But the situations fallen from my hands
(I feel exasperation
Get down on your knees
I called the operator
But this is where I freeze I said hello
I said hello
I said hello
I've got to go
Do you love me?
Do you love me?
No
Do you love me?
Do you love me?
No
I've got to go()
