Something in the Air

Lila McCann

Out on that river road
In a Pontiac lit up by the dashboard glow
They hold each other close
Under a harvest moon love is about to bloomThere's something in the air tonight
Something electric
The point where love ignites
The center of the heart
You never see it comin', no
There isn't a warning, no reason, not a sign
But you can feel it everywhere
There's something in the airEvery tender touch is fire
Every single sound is the sound of desire
Like an angel's choir
Blinded by the sudden flash
Together they'll strike the perfect matchThere's something in the air tonight
Something electric
The point where love ignites
The center of the heart
You never see it comin', no
There isn't a warning, no reason, not a sign
But you can feel it everywhere
There's something in the airA little luck
An act of fate
Brought them here
Now love can't waitThere's something in the air tonight
Something electric
The point where love ignitesThere's something in the air tonight
Something electric
The point where love ignitesThere's something in the air
There's something in the air tonight
There's something in the air tonight
You can feel it everywhere
There's something in the air
There's something in the air tonight
There's something in the air tonight
There's something in the air
