

# Something in the Air

Lila McCann

Out on that river road  
In a Pontiac lit up by the dashboard glow  
They hold each other close  
Under a harvest moon love is about to bloom  
There's something in the air tonight  
Something electric  
The point where love ignites  
The center of the heart  
You never see it comin', no  
There isn't a warning, no reason, not a sign  
But you can feel it everywhere  
There's something in the air  
Every tender touch is fire  
Every single sound is the sound of desire  
Like an angel's choir  
Blinded by the sudden flash  
Together they'll strike the perfect match  
There's something in the air tonight  
Something electric  
The point where love ignites  
The center of the heart  
You never see it comin', no  
There isn't a warning, no reason, not a sign  
But you can feel it everywhere  
There's something in the air  
A little luck  
An act of fate  
Brought them here  
Now love can't wait  
There's something in the air tonight  
Something electric  
The point where love ignites  
There's something in the air tonight  
Something electric  
The point where love ignites  
There's something in the air  
There's something in the air tonight  
There's something in the air tonight  
You can feel it everywhere  
There's something in the air  
There's something in the air tonight  
There's something in the air tonight  
There's something in the air
