

Take It to the Limit

Danny Gokey

If you want to be free, we gotta jump in and let it all go
If I will never die without naming the sky like there's no tomorrow

Break through everything that's been holding you
(Take it to the limit, take it to the limit)
Let this feeling take you beyond the moon
(Take it to the limit, take it to the limit)

Take it to the limit, we gon light it up, gon hold it up, gon burn it up
We don't have to fake it, we can change the game, won't stay the same
Let this feeling take you beyond the moon, whoa
(Take it to the limit)

Girl if you feel like you wanna (take it to the limit)
Girl...if you gonna (take it to the limit)
I'll break the chains so you can (take it to the limit)
Take it to the limit

I know this is our moment, there's an explosion ready to blow
Tonight we'll jump on the ride, never felt so alive as we got in our soul

Break through everything that's been holding you
(Take it to the limit, take it to the limit)
Let this feeling take you beyond the moon
(Take it to the limit, take it to the limit)

Take it to the limit, we gon light it up, gon hold it up, gon burn it up
We don't have to fake it, we can change the game, won't stay the same
Let this feeling take you beyond the moon, whoa
(Take it to the limit)

Girl if you feel like you wanna (take it to the limit)
Girl...if you gonna (take it to the limit)
I'll break the chains so you can (take it to the limit)
Take it to the limit

We're gonna take it to the limit
I'll take you there, said I'll take you there
We're gonna take it to the limit

Come jump on this train, come ride, we won't be the same

Take it to the limit, we gon light it up, gon hold it up, gon burn it up
We don't have to fake it, we can change the game, won't stay the same

Let this feeling take you beyond the moon

(Take it to the limit, take it to the limit)

Let this feeling take you beyond the moon

(Take it to the limit)

Girl if you feel like you wanna (take it to the limit)

Girl...if you gonna (take it to the limit)

I'll break the chains so you can (take it to the limit)

Take it to the limit (take it to the limit)

Girl if you feel like you wanna (take it to the limit)

Girl...if you gonna (take it to the limit)

I'll break the chains so you can (take it to the limit)

Take it to the limit
