

# Velocity Girl

## Primal Scream

Here she comes again  
With vodka in her veins  
Been playing with a spike  
She couldn't get it right Splendour in silver dress  
Velocity possessed  
The world was hers again  
It fell apart again I don't need anyone to hurt me  
No, not anyone at all  
`cause my so-called friends have left me  
And I don't care at all Leave me alone  
Leave me alone  
Leave me alone Transcribed by alison cummings
