

# Beast Loose In Paradise (Radio Edit)

Lordi

Something's moving swarming under rugs  
Cold flesh cosy home for worms and bugs  
Their children, bad omen, these evil seeds will grow  
Dark havens, black ravens, thunder's about to blow  
Hell's already here if we are living to die  
Beast loose in paradise

Who knows if we're gonna meet in heaven tonight'  
Beast loose in paradise  
The beast is loose!  
The beast is loose!  
Madness rose upon their last of kin  
Crazy hungry for another sin  
Their children, bad omen, these evil seeds will grow  
Dark havens, black ravens, thunder's about to blow  
Hell's already here if we are living to die  
Beast loose in paradise

Who knows if we're gonna meet in heaven tonight'  
Beast loose in paradise  
The beast is loose!  
The beast is loose!  
Vertigo swirls down  
To skeletal hell

Wrapped up in a death shroud  
Biting at souls who are ready to fall  
Hell's already here if we are living to die  
Beast loose in paradise

Who knows if we're gonna meet in heaven tonight'  
Beast loose in paradise.  
Hell's already here if we are living to die  
Beast loose in paradise

Who knows if we're gonna meet in heaven tonight  
Beast loose in paradise
