Country Yard

The Vines

I'm tired of feeling sick and useless
Then speakin' every other way
Gluin' my eyes together girl
Might be the right escape

There's nothin' in the secret garden
Just images of blue and white
Losin' my mind forever girl
May be the only sign

Down in a country yard
I was taken by the shadows
Although we couldn't see that far
I was dreamin' of tomorrow
I really don't need a change
I really don't need what's mine
Out in a country yard
It'll be just fine

Ah
Ah
Ah
Ah

Down in a country yard
I was taken by the shadows
Although we couldn't see that far
I was dreamin' of tomorrow
I really don't need a change
I really don't need what's mine
Out in a country yard
It'll be just fine

Ah
Ah
Ah
Ah
