

# Rock and Roll Suspension

## Missing Persons

So she says that you need too much attention

What is the answer to the rock 'n roll suspension? Will you remain alone to spend your old age pension?  
To reconcile with the hours of school you spent in detention? When she is gone, where will you regain this  
adoration?

Now what will you declare to be your destination? Can you depend on your reflection

To disguise your love contamination? So she says that you need too much attention

What is the answer to this rock 'n roll suspension? Do you examine your projections

Based on the impulses of your impressions?

Just know only you will live your reputation

Will the culmination be perfection? Can you depend on your reflection

To disguise your love contamination? Too much attention, this rock 'n roll suspension
