

# Been A Son

## Nirvana

She should've stayed away from friends  
She should've had more time to spend  
She should've died when she was born  
She should've worn the crown of thornsShe should have been a son  
She should have been a son  
She should have been a son  
She should have been a sonShe should've stood out in a crowd  
She should've made her mother proud  
She should've fallen on her stance  
She should've had another chanceShe should have been a son  
She should have been a son  
She should have been a son  
She should have been a sonBeen a son  
She should have been a son  
She should have been a son  
She should have been a sonShe should've stayed away from friends  
She should've had more time to spend  
She should've died when she was born  
She should've worn the crown of thornsShe should have been a son  
She should have been a son  
She should have been a son  
She should have been a son
