

# Light as a Feather

Norah Jones

While the seasons will undo your soul  
Time forgives us and it takes control  
We separate our things to put us back togetherWe're light as a feather  
Heavy as the weather  
If it was raining stonesPut our hands together to applaud or pray  
It's like the show was over  
But we're too scared to walk away  
All for the better, worse for the wearWe're light as a feather  
God, you and I together  
Meanwhile inside me it was raining stones  
You didn't know, God bless your soulWe're light as a feather  
Heavy as the weather  
We're light as a feather  
God, you and I together
