

I See You

Yes

I see you, la la la la la la la la la la la, I see you

I see you, la la la la la la la la la la la, I see you

I see you, la la la la la la la la la la la, I see you
Sun smiling sun through the cave of your hair
Wind washing tulips out of space sitting there
I love you, at your door second floor, first world war, I love you
Who listens, tell your friend I'm aware that she care, who listens
Green specks bright spiraling out in the sky
Catch my eye turn my head have to look don't know why
I see you, everywhere behind your hair over there, I
see you

I see you, though your eyes can tell lies I sympathize, I see you
Sun smiling sun through the cave of your hair

Wind washing tulips out of space sitting there

I love you
I see you, everywhere behind your hair over there, I see you

I love you, at your door second floor, first world war, I love you

I love you, I love you, I love you, I love you
