# Candle For The Devil

## Wednesday 13

Some people they were born with it
They got the flame burning in thier eyes
Shoot first and ask questions later has been the story of my life
Two middle fingers and a mouth from the south
And my targets in my sight
I hold a candle for the devil baby cause it keeps me warm at night
(Hold a candle for the Devil)
He leads me home at night
(Hold a candle for the Devil)
He always treats me right
X2

Some people say it makes no sense
It's like I'm itching for an early grave
Just like my mamma always told me I'm the only hell she ever raised
Full throttle down this high way to hell
Buckle up now it's a bumpy ride
666 grab your crucifix it's gonna be a hell of a night
(Hold a candle for the Devil)
He leads me home at night
(Hold a candle for the Devil)
He always treats me right
X6
