

Resonance

LuvBug

(feat. Talay Riley)

If you really cared
You woud care less
Fight the fear of being fearless, fearless

Done with the norm
We want enormous
Blood on the floor
But it was flawless, flawless

Resonance
Running through my veins
Resonance
Running through my brain

I need this resonance
Like a club needs bass

If you really cared
You woud care less
Fight the fear of being fearless, fearless

Done with the norm
We want enormous
Blood on the floor
But it was flawless, flawless

Resonance
Running through my veins
Resonance
Running through my brain

I need this resonance
Like a club needs bass
