

Out Of My Mind

The Madden Brothers

When I saw you at this time
I dreamed of days when you'd be mine
Patiently I waited for a sign
You said we'd meet after the show
I spend the night getting to know
All the things about you that are so beautiful, and so much more than I deserve
You got me in love, out of my mind
You got me in love, out of my mind
Through years of time, of rings to find
And little ones for us to guide
Imagining that love could never die
You tell me well that's where I'll glow
I'll spend my life getting to know
All the things about you that are so beautiful, and so much more than I deserve
You got me in love, out of my mind
You got me in love, out of my mind
How am I supposed to fight without you now doing my nights
The fear comes from being alone
Together we have each other
Always and forever
We are, we are, we are home
I've followed you to Saint Tropez
Even if we're turned away
Just because they say I'm not refined
You never care what others say
Not ever wrong from that mistake
You've only ever cared I say you're mine
You're so beautiful, and so much more than I deserve
You got me in love, out of my mind
You got me in love, out of my mind
Oh, you got me in love, out of my mind
