

I Don't Wanna Take It Slow (Acoustic)

[Amelie](#)

Letra de I Don't Wanna Take It Slow -
In a new york minute, we met in an instant
Running on an ill state of mind
The moment came and went, now we're more than friends
Wanna take you on a little joyride So listen Don't go fading in the rearview
Can't wait half a second more
Girl, I like the way you make me feel
And this time it's for real So come and take the wheel
Ran the red light, almost midnight
You better hope take us out
I don't wanna take it slow It's just too bright, don't say goodnight
Baby, no one's stopping us
No, I don't wanna take it slow I don't wanna take it slow
I don't wanna take it slow We go forever when we're together
We're falling so hard like the pouring rain
And when we're apart it only gets so far
Till I wanna do it, do it all again Don't go fading in the rearview
Can't wait half a second more
Girl, I like the way you make me feel
And this time it's for real So come and take the wheel
Ran the red light, almost midnight
You better hope take us out
I don't wanna take it slow It's just too bright, don't say goodnight
Baby, no one's stopping us
No, I don't wanna take it slow I don't wanna take it slow
I don't wanna take it slow We got no time to waste
So what's it gonna take? Ran the red light, almost midnight
You better hope take us out
I don't wanna take it slow It's just too bright, don't say goodnight
Baby, no one's stopping us
No, I don't wanna take it slow I don't wanna take it slow x2
